I thought this was going to be a game full of citizens with poorly asked questions. I was really amazed! It wasn't a lot of citizens, even though it was all 130 levels! I was able to finish it in one day, but that was mostly just me being bored, lol. Definitely fun and makes you not think! Although, I wish I could give you a 4.5. Well, to eat some of the repeated questions, which I understand! I also love the fact that you made vain points for the caramel cat. You didn't get you in our face, but it made it important enough for the player to think. I can't wait to see future updates! THANK YOU FOR THIS AWESOME REVIEW! We love it! Firstly, they congratulate the game and sorry for the flaws we are constantly working to correct them. We also hear you about the characters promoted in our game, we received some similar comments and we will make some changes of characters in the next update. Just stay around new fun and complicated! I just started playing the game yesterday at night. It is a fun game of Cá © rebro! I love the questions. They make you think outside the box and I like all the small pedajaços of information! I'm in the noisy 32, which means I have answers 32 questions. But the biggest disadvantage to now !!!! I already answered 32 dwarfs, but I also had to watch 32 dwarfs !!!!! The amount of dwarfs is ridiculous! I understand that the games gramis will have dwarfs! And that would be good. I play some games, all with dwarfs. But this game has a dwarf literally after each question !!! I usually watch vade in games that offer points/coins to watch a video. Well, this game offers so many brain points to watch a video or if you don't want the points, there is a "XIMO. I just wanted to go to the next question and realized that I would skip the points a few times. So I just squeezed the button “Ximo to jump watching a dwarf. Or I thought I thought !! I go ahead and tell you now, you may just well tighten the reindelation button and get your brain points, because you have to watch a dwarf before the next question, regardless !! I was soaked soaked !! You answer the question very quickly, so you have to spend 30 seconds one year before going to the ³. At least change to watch a year after every 4-5 questions!! At this rate, I'm not sure how much longer I'll play! Thinking of trying to find another Game of the rebro! If it wasn't for the non-nationals, I would rate 5 stars because I like the content! The game will show you all the levels you don't complete. So some people download this game because it's fun. It' fun, but the game also doesn't show you any numbers when you don't skip a level, but the game doesn't. You can't skip a level, but that doesn't mean that you don't win your freedom from the citizens, because when you don't go to the ³ level and complete it, an citizen appears immediately. A ©m of that, that's what the game is like 1 nVável conclusion, but that's what the game said: ãIf you don't touch this claim bot, we'll show you an ad because you don't touch no, thank you". I think this game is fine, but the only problem is the missing parts of this game, so if you don't download this game, I'll see a lot of ads. Toon Blast will continue to appear for a long time and are the main player of the game. Other nations like ³ will do the same thing. A half of annoying antiç that like to appear, but the non-existent may be waiting for you or just want to keep showing up. Anyway, this game is fun, you should not download it. If the implanter is reading this, the game at least try to put fewer citizens and no more nationals as the game lost the hair. please do it or i'll be angry, so do it now!! People who are reading this should know why the game keeps showing non-citizens. So it doesn't matter if you don't live in the United States, please stay strong in Am ©rica also because of a virus in the world now. But I'll see you later. Peace!
